

PROFILE SUMMARY

- **Software Engineer** Developer with **3+ years of experience**, currently contributing to the development of customer-facing features at a leading **Parking Management company**, aimed at **improving operational efficiency** and **enhancing user experience**.
- Specializing in **React, Next.js, JavaScript and TypeScript, Python** with a strong foundation in **Full-stack development**, I work cross-functionally to build scalable web applications that support business growth and increase user satisfaction.
- Recognized for exceptional **collaboration skills**, effectively working **cross-functionally** to translate complex **business requirements** into impactful **technical solutions** aligned with organizational goals.

WORK EXPERIENCE

Xebia (coMakeIT) | Software Engineer | Hyderabad | Sep'2021 – Present
Front-End Developer

Industry: Parking Management Company

Competency: Cloud-Native Web App Development

- **Architecture Modernization:** Led the integration of a standalone React application into a legacy Ruby on Rails monolith using Hasura GraphQL, improving system scalability, maintainability, and performance by 40%.
- **Decoupling & Deployment:** Orchestrated a complete frontend-backend decoupling and rollout, achieving 100% successful migration from the Rails MVC framework.
- **Reusable UI Components:** Published a private NPM library to standardize component usage across repositories, reducing redundant development effort by 30%.
- **GraphQL API Optimization:** Implemented efficient GraphQL API integrations, enhancing data handling and reducing response times by 25%.
- **Agile Delivery:** Spearheaded urgent cross-team tasks within 24 hours, earning client recognition for speed and quality.
- **Rapid Feature Delivery:** Accelerated the launch of a complex feature set, deploying 2 weeks ahead of schedule and setting a new internal benchmark.

Skills: ReactJS, Ruby on Rails, Hasura GraphQL

Industry: Software Development Platform

Competency: Modern Web Applications & Microservice Architectures

- **Data Engineering:** Designed scalable data pipelines using Python and Spark, cutting processing time by 40%.
- **AI Integration:** Built a Langchain-powered PDF chatbot, improving document search efficiency by 70%.
- **Cloud-First ETL Workflows:** Deployed Apache Airflow with AWS Glue DataBrew, ensuring 99.9% uptime for production ETL pipelines.
- **Cloud Architecture:** Architected end-to-end cloud-native solutions with AWS, enabling seamless production deployments.

- **Developer Productivity:** Delivered visual workflow UIs using ReactFlow, increasing dev team efficiency by 35%.
- **Rapid Frontend Delivery:** Utilized JHipster for frontend scaffolding and introduced feature flags in React/Angular, enabling safe and fast rollouts.

Skills: Python, Spark, Apache Airflow, AWS, ReactJS, GCP Data Fusion, Feature Flags, Go, Angular

Industry: Local Services Marketplace

Competency: Web & Mobile App Development

- **Cross-Platform UI Development:** Built high-performance UIs using Angular (web) and React Native (mobile), boosting app performance by 25%.
- **Feature Delivery:** Delivered features like real-time chat through close collaboration with backend and product teams, earning client accolades.
- **Cross-Platform Proficiency:** Quickly became productive in multiple stacks (Angular, React Native), reducing ramp-up time by 50%.
- **Code Quality:** Promoted clean coding standards and QA-friendly development, reducing bug count by 30%.
- **Legacy System Contributions:** Contributed to a J2EE-based airline booking system, optimizing UI with HTML, CSS, JavaScript, and Java.

Skills: Angular, React Native, HTML, CSS, JavaScript, Java, J2EE

EDUCATION

B.Tech, Computer Science and Engineering CMR College of Engineering and Technology, Hyderabad	2018 - 2022 9.02 CGPA
MPC, Sri Gayatri Junior College	2016 - 2018 95%
High School St. Ann's Grammar School	2015-2016 9.8 CGPA

TECHNICAL SKILLS

ReactJS, Redux, Next.js, JavaScript, TypeScript, HTML, Cascading Style Sheets (CSS), SASS/SCSS, Tailwind CSS, Bootstrap, Webpack, Node.js, Express.js, RESTful APIs, GraphQL, Python, C++, MongoDB, SQL, Agile methodologies, version control (Git), Github, Python, Apache Airflow, Data structures, algorithms

CORE COMPETENCIES

Enterprise-grade development, front-end development, Web Development, responsive design, accessibility, scalable web tech, agile methodologies, cross-functional collaboration, secure applications, UI/UX optimization, cloud computing, RESTful API development, microservices architecture, SQL/NoSQL database design, web analytics, SEO best practices, performance optimization, mobile-first development, DevOps practices, Continuous Integration/Continuous Deployment (CI/CD)
